

Praxis Victoria is pleased to invite you to an open training night

## "Mentoring Young People"

....with John Drower (NZ)

John Drower is better known as 'JD'. JD has been involved in what he calls the 'People Trade' for the last 22 years, 11 of which was in Christian Camping, working with mainly young people. For the last 11 years he's been working for Youth for Christ & Praxis. If that wasn't enough, he has been pastoring a church for the last 7 years.

He is married to Trish – they have four kids and have picked up two more 'sons' who have married their daughters.

JD says about himself:

*I'm not quite sure how to explain myself except that God has given me a big dad heart. I love walking with folk, supporting, encouraging, crying with and cheering on. Sometimes the thing that gives me most life also gives me the greatest grief.*

Come along and share a night of inspiration and practical guidance with JD, as he teaches us why mentoring young people is so important, and how we can do it.
